

EVAN SANDHOEFNER

WORK EXPERIENCE

SOFTWARE PROJECTS

November 2014 - Present

Please visit <http://sandhoefner.github.io> for a portfolio of individual and team projects, including:

- CustomCatan - a web-based board layout optimizer for the popular game *The Settlers of Catan*
- AgroMod - a Chrome extension to enhance the functionality and UX of the MMO game Agar.io
 - Over 3,000 users in the Chrome web store
- Gravity Trainer - a training, reference, and record-keeping Android app for rock climbers
- A Connect Four AI game, implemented using a minimax algorithm with alpha-beta pruning
- Interactive data visualizations exploring topics such as American electoral politics, characteristics of elite rock climbers, and the economics of global climate change

AUTHOR, "SHOCK WAVES: MANAGING THE IMPACTS OF CLIMATE CHANGE ON POVERTY"

January 2015 – November 2015

Co-authored a World Bank-commissioned economic paper examining the distributional impacts of climate change in developing countries, with a focus on extreme poverty. Received a grant from the Harvard University Center for the Environment; analyzed a large dataset using Stata and Python; produced interactive visualizations using JavaScript with D3.

TUTOR, ADMISSIONS HERO

July 2014 – January 2015

Assisted clients with college preparation, providing application essay revision, SAT tutoring, and general academic and extracurricular advising.

RETAIL CLERK, KNOTT'S BERRY FARM

June 2013 – August 2013

RESEARCH INTERN, UNIVERSITY OF SOUTHERN CALIFORNIA

June 2012 – August 2012

Worked on the California Young Adult Study, which explores the determinants of educational attainment, civic engagement, and employment among California's youth. Transcribed and coded interviews; wrote topical briefs for the head professor based on qualitative data.
